

BD CustomEyes™ Intravitreal Injection Kit

Designed with Safety in Mind

- **Reduces infection transmission risk**
Single-use kits, designed to help you comply with today's safety requirements and recommendations
- **Saves time — intuitive presentation**
The most commonly used products are pre-assembled, sterilized, easy to open and ready to use
- **Simplifies ordering and reduces inventory**
With only one IVT kit to order, keeping track is simple and stocking of individual products is eliminated

Helping all people
live healthy lives
