live healthy lives

# Introducing BD Solid RCRA\* Hazardous Waste Collectors

Manufactured from 70% recycled materials

## 9, 17 and 19 Gallon

### Dual Opening Hinge Top with VAT Perimeter Locks visual • audible • tactile

- Feature:** Dual opening hinge top with 18 (9 gal.) or 20 (17 gal.) VAT perimeter locks.
- Advantage:** Decide which side remains open based on your department needs. Locked side remains permanently locked with help of VAT perimeter locks.
- Benefit:** Accessibility of both sides of container based on RCRA waste generator needs and added security against penetration with VAT perimeter locks.

### Custom-fit Top Foam Gasket

- Feature:** Proprietary custom fit process to form foam gasket around the inside of the hinge top.
- Advantage:** Allows adaptability to hinge top shape regardless of top size.
- Benefit:** Potentially prevents leaks during accidental tip-over.

## 3 and 5 Gallon One Piece

### Handle

- Feature:** Large handle; ergonomically-designed.
- Advantage:** Comfortable and safe.
- Benefit:** Designed for ease of movement and transportation.

### Large Opening

- Feature:** 4.25 inch (11 centimeters) diameter opening.
- Advantage:** Accepts small or large items.
- Benefit:** Disposal of large Solid RCRA Hazardous Waste.

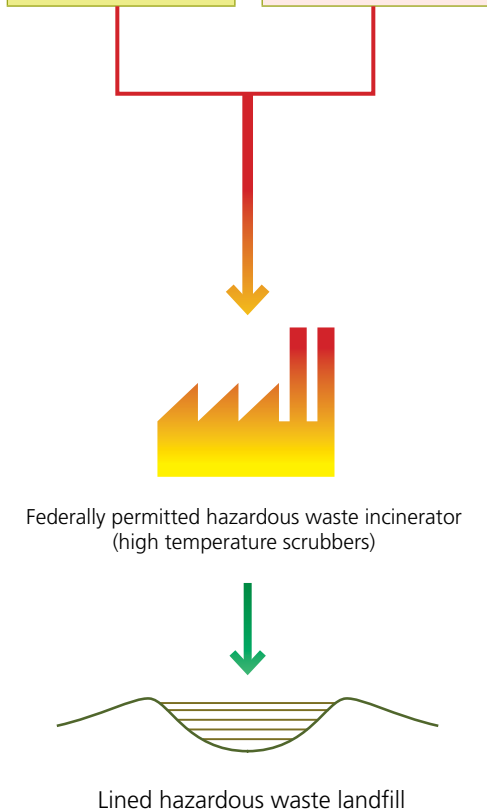

### Three-Lock Cap

- Feature:** Three-lock hinge system.
- Advantage:** Temporary closure for transport and in-between usage.
- Benefit:** Designed to provide temporary closure during transportation and in-between uses.

Made from a minimum of 70% recycled material
